

ROMAN WORDS

The Romans gave us other words which we use everyday.

Read the silly story below.

Underline all the words we borrowed from the Romans.

On this day, a Saturday, a century ago, the bishop had a fever from digesting chalk.

The abbot and the nun removed the candles from the copper chest and took them to the major church in the street.

The giant dragon found the bishop reclining on a pillow. The bishop gave the dragon cheap cheese and turnips and a potion of wine, prunes and vinegar.

Then they viewed a video about a quiet porcupine camping next to a fountain on a mountain. The peacock visited with a sack of radishes, mint and lettuce. Then they moved the anchor to the school wall and scribbled a sign "It is our anniversary!"
