

Four Seasons Mosaic Challenge

Four Seasons Mosaic Challenge

Have a go at filling in some of the missing pieces on this mosaic or just colour it in

It was uncovered in the late 1940's during excavations in Orchard Fields
of a house to the South East of the fort

The four seasons was a popular subject for tessellated floors like this one

Although it is not complete we can see Winter in the bottom right corner, so we know
that it depicts the four seasons

**You could also have a go at drawing your own version of the missing seasons
or have a go at the cable pattern, which is tricky to get right**
